This week we will start looking at our families. We will talk about the people who are special to us and the things we do together. This will tie in with our discussions about Jesus and His family. We will talk about how He had to help His family and the ways we can love each other.

**Literacy**

We will continue to focus on syllables this week, as well as the long 'lll', 'mmm' and 'sss' sounds. Our book focus this week will be 'Grandpa', we will discuss our favourite part of the story and use this to talk about the amazing things we do with our families.

**Numeracy**

This week we will practise counting and recognising the numbers to ten. We will also be using a number line to help us gain a deeper understanding of the relationship between the numbers to five.

**Science**

We are very excited to see that our seeds have sprouted! We will be watching them carefully over the next few weeks as they grow. We have learnt that they need sunshine, water and soil to grow and we are taking very good care of them. We will be recording our observations in our journals and using blocks to measure how much they have grown.

---

**Wet Weather Gear**

Thank you to everyone who has brought in gumboots and a raincoat, we will no doubt put them to good use over the next few weeks.

---

**Thank you!**

A big thank you to all of our Mums for joining us last Thursday for our Mother’s Day morning. We hope you enjoyed being spoiled and spending some time with all of us!
